- Volunteering: More than 3 years

OBJECTIVE

Mern Stack Software Engineer with strong experience in building scalable and interactive web applications using Next.js, React, Node.js, Express, and MongoDB.

Skilled in developing AI-powered educational platforms and real-time systems. Experienced in teaching programming, leading teams, and delivering high-quality digital solutions. Passionate about problem-solving, performance optimization, and creating impactful user experiences.

EXPERIENCE

- Programming Instructor | Edubia Academy | Part-time, Remote** **Apr 2026 – Present**
- Delivering remote programming lessons to students, focusing on developing their coding and problem-solving skills through interactive Sessions and hands-on projects.
- Programming Instructor | Megaminds Academy | Part-time, Remote** **Mar 2026 – Present**
- Delivering remote programming lessons to students, focusing on developing their coding and problem-solving skills through interactive Sessions and hands-on projects.
- Project Coordinator | CherryScale Academy | Part-time, Remote** **Feb 2026 – Present**
- Coordinating and managing educational and technical projects, ensuring timely delivery and smooth communication between team members.
- Programming Instructor | ISKY Academy | Part-time, Remote** **Sep 2025 – Present**
- Delivering remote programming lessons to students, focusing on developing their coding and problem-solving skills through interactive sessions and hands-on projects.
- Programming Instructor | FORASNA Academy | Part-time, Remote** **July 2025 – Present**
- Delivering remote programming lessons to students, focusing on developing their coding and problem-solving skills through interactive sessions and hands-on projects.
- Freelance Coordinator | E-Youth – DPEI | Part-time, Remote** **Oct 2024 – Jun2025**
- Serving as a coordinator, collaborating with various stakeholders to develop training programs aimed at enhancing digital skills among youth.
- Freelance Coordinator | almentor–Digital Cubs of Egypt Initiative | Part-time, Remote** **Jun 2024 - Present**
- Serving as a coordinator, collaborating with various stakeholders to develop training programs aimed at enhancing digital skills among youth.
- Frontend Instructor for both children and adults | Freelancing Courses | Part-time.** **July 2024 - Dec 2024**
- training students in web development using HTML, CSS, JavaScript, and React.js.
- Frontend Development Instructor – Codepaker Bootcamp, IEEE** **Aug 2024 - Feb 2024**
- Taught an introductory session on the frontend course, giving students an overview of the curriculum and core concepts.
- Head of Frontend Development | IEEE Al Azhar University Student Branch .** **Oct 2023 - Oct 2024**
- training students in web development using HTML, CSS, JavaScript, and React.js.
- Instructor of Advanced Java Programming | Az-SENCS Al Azhar University Student Branch | Feb 2022 - Oct 2023**
- Taught advanced Java programming to students, focusing on improving their problem-solving skills and developing robust applications.

EDUCATION

Bachelor of Engineering ,Department of Systems Engineering and Computers | Faculty of Engineering | Al-Azhar University Cairo Egypt.
Oct 2020 –May2025

- GPA: Excellent (Honors Degree).

PROJECTS

Medical Clinic Website | HTML, CSS

Designed and developed a front-end interface for a medical clinic as part of my first training experience. Focused on clean layout, user-friendly navigation, and basic accessibility best practices.

<https://esraael.github.io/My-first-website/>

Library Website | HTML, CSS

Created a static website for a library during a training program, applying foundational front-end skills to design structured pages, styled content, and organized layout for browsing books and resources.

https://esraael.github.io/website_2/

Restaurant Website | HTML, CSS, Bootstrap

Developed a responsive and visually appealing website for a restaurant during a training phase, utilizing Bootstrap components to ensure mobile-friendliness and clean layout while strengthening front-end styling skills.

https://esraael.github.io/third_project_in_bootstrap/

Hajj & Umrah Guidance Website | HTML, CSS, Bootstrap

Built a responsive web platform aimed at simplifying Hajj and Umrah rituals for users, leveraging Bootstrap for layout structure and responsive design. Focused on clarity, accessibility, and user-friendly presentation of religious guidance.

https://esraael.github.io/alhaj_project/

E-Commerce Platform | HTML, CSS, JavaScript, Bootstrap

Designed and implemented a dynamic e-commerce website simulating online buying and selling processes. Integrated interactive features using JavaScript, such as product browsing, cart functionality, and responsive layouts with Bootstrap.

<https://esraael.github.io/project-with-js/>

Islamic Content Website (Qur'an & Hadith) | HTML, CSS, Bootstrap, JavaScript

Developed a responsive Islamic website displaying Qur'anic verses and prophetic Hadiths. Focused on clean UI design, structured content presentation, and interactive navigation using JavaScript and Bootstrap for an enhanced user experience.

https://esraael.github.io/islamic_project/

Personal Portfolio Website | HTML, CSS, Bootstrap, JavaScript

Created a fully responsive personal portfolio website showcasing my background, skills, and projects. Emphasized clean design, smooth navigation, and interactive elements to reflect my capabilities in front-end development.

<https://portfolio-henna-theta-63.vercel.app/>

Educational Platform | Next.js, TypeScript, Tailwind CSS

Developed a full-stack educational platform offering courses and interactive learning tools. Built scalable front-end components with Next.js and Tailwind, integrating TypeScript for type safety and maintainability. Focused on performance, accessibility, and modular design.

CERTIFICATIONS

Frontend Track (React.js) Student in Digital Egypt Pioneers Initiative – DEPI.

Oct 2024

Backend Certificate Node.js in SEF Academy.

Jan 2024

Frontend Certificate React.js in SEF Academy.

May 2023

Introduction To Web Technologies in ITI Institute.

Jan 2023

TECHNICAL SKILLS

Frontend:

React.js, Next.js, HTML, CSS, Tailwind, Bootstrap

Backend:

Node.js, Express.js

Database:

MongoDB

Programming:

JavaScript, TypeScript, Java, C++, Python

Concepts:

OOP, Data Structures, Problem Solving

TEACHING & CHILD DEVELOPMENT SKILLS

Programming for Kids:

Scratch, ScratchJr, PicoBlocks, mBlock, MIT App Inventor, Flutter Flow , Flutter with Dart , AI With PictoBlox , AI Content Creation , Python , Html , Css , JavaScript , React, Developed educational mini-game using python and Godot to support kids' learning, AI and Machine Learning, Cyber Security

Core Learning Skills Development:

Problem Solving, Logical Thinking, Computational Thinking, Creativity

Educational Tools:

Code.org, Minecraft Education, Google Colab (Beginner), Visual Studio Code (Basic)

SOFT SKILLS

Strong proficiency in Microsoft Office (Word, Excel, PowerPoint)

Excellent communication and interpersonal skills

Ability to work under pressure and meet deadlines

Adaptability and flexibility in dynamic environments

Leadership and team motivation skills

Problem-solving and analytical thinking

Teamwork and collaboration

Attention to detail and quality assurance

Fast learner with a passion for continuous improvement
